Dhaka, Bangladesh

Python/Django developer with hands-on experience building RESTful APIs and full-stack web applications. Passionate about backend architecture, API design, and payment gateway integration. Competitive programmer with 600+ algorithmic problems solved across Codeforces, LeetCode, AtCoder and HackerRank.

Technical Skills

Languages: Python, Java, JavaScript, C, C++
Frameworks: Django, Django REST Framework, Flask
Tools: Git, VS Code, Postman
Database: MySQL, PostgreSQL, SQLite
Frontend: HTML, CSS, Bootstrap, Basic JavaScript
Interests: Machine Learning, AI

Projects

CR Reviews – University CR Review Platform

Sep 2025 – Nov 2025

Tech Stack: Django, PostgreSQL, Cloudinary, SendGrid, HTML, CSS, Bootstrap, JavaScript

Live Demo: crreviews.onrender.com

- Implemented user authentication with email verification, Google OAuth2 and password reset functionality.
- Developed a rating and review system with anonymity controls and one-review-per-user policy.
- Built an admin dashboard with statistics, user/CR/review management and monthly analytics charts.
- Integrated Cloudinary for optimized image storage and SendGrid for transactional email services.
- Created advanced search and filter features by university, department, batch and ratings with pagination.

UrbanThread – Scalable E-Commerce Backend

Jan 2026 – Apr 2026

Tech Stack: Django, Django REST Framework, JWT Authentication (SimpleJWT), SQLite, SSLCommerz

- Designed modular REST APIs for product management, inventory control, cart, order processing, coupon system, payments, and customer reviews.
- Implemented secure JWT-based authentication and authorization with protected user endpoints.
- Built cart and checkout workflow with real-time stock validation and automatic inventory synchronization.
- Integrated SSLCommerz payment gateway for secure online transactions.
- Implemented filtering, searching, and pagination using django-filter for efficient API usability.

Student Management System – RESTful API

Nov 2025 – Jan 2026

Tech Stack: Django REST Framework, Python, SQLite, Django Admin

- Full CRUD operations across 5 modules: Students, Teachers, Courses, Departments and Enrollments.
- Advanced filtering and search with DjangoFilterBackend supporting multi-field queries.
- Custom serializers with nested relationships for complex enrollment data representation.
- LimitOffsetPagination across all endpoints for efficient data retrieval.

Education

B.Sc in Computer Science & Engineering

Daffodil International University, Savar | CGPA: 3.40

Jan 2023 – Present

Diploma in Engineering

Magura Polytechnic Institute, Magura | CGPA: 3.80

Aug 2017 – Jun 2021

Achievements

- **3rd Place** – [DCC Programming Fest 2021](#) - Apr 2021 | Podium finish in first-ever contest during diploma studies.
- **13th Place** – [DIU Take-Off Programming Contest Spring 2023 \(Final\)](#) – Jun 2023 | Solved 6 problems.
- **11th Place** – [DIU Code Trap Programming Contest Fall 2023](#) – Feb 2024 | Solved 7 problems.
- **6th Place** – [DIU Unlock the Algorithm Preliminary \(C Slot\)](#) – May 2024 | Solved 5 problems.
- **25th Place** – [DIU Unlock the Algorithm Spring 2024 \(Final\)](#) – Jun 2024 | Solved 3 problems in the final round.
- **Solved 600+ algorithmic problems** across Codeforces, LeetCode, AtCoder, HackerRank, and more.
